

## GRT-300

### Rotary Dispensing Desktop

GRT-300 is a rotary dispensing desktop which is designed for round products. GRT-300 can ensure  $\pm 0.2$ mm repeatability accuracy, no glue drips with back-flow function.

Moreover, the nozzle angle can be adjustable freely. This enables GRT-300 to dispense circle and arc patterns with any degree. Data & speed can also be programmable on user-friendly LED display.

**Applications:** 310ml package silicone; E27 and other specs bulb base, Fixture are provided

### FEATURE

- High-precious valve with back-flow
- Dispense circle and arc patterns with any degree
- Easy operation with high-quality stability
- $\pm 0.2$ mm repeatability accuracy

### SPECIFICATION

Repeatability	$\pm 0.2$ mm
Work place	Three-workplace available, 800-1200pcs/h
Driving Method	Precision Stepping Motor
Air Pressure Input	0.4-0.7Mpa
Power Input	AC-220V 50Hz, 150w
Dimension	L660xW380xH680
Weight	50kg
Package	Wooden case for international export
